

Call for Proposals 2010/2011

Deadline for application :  
Friday October 15, 2010

# Adaptation

H<sub>2</sub>O

## Graduate Research Awards on Climate Change and Water

### About the Awards

- Seven awards, each with a maximum value of CA\$15,000, are available this year to cover fieldwork expenses for graduate students who are citizens of a developing country and who are enrolled in a master's or doctoral program at a Canadian or developing country university.
- Two awards, each with a maximum value of CA\$15,000, are available this year to cover field work expenses for Canadian citizens (or permanent residents) who are graduate students enrolled in a doctoral program at a Canadian university.
- The proposed field work must take place in a developing country and start no later than July 1, 2011.
- All applicants must be affiliated with one recognized non-academic institution in the developing country in which the proposed research will take place.
- The awards are only meant to cover research expenses and not university tuition or affiliation fees.
